# Foreword

The World Travel & Tourism Council (WTTC) is the global authority on the economic and social contribution of Travel & Tourism. WTTC promotes sustainable growth for the sector, working with governments and international institutions to create jobs, to drive exports and to generate prosperity.

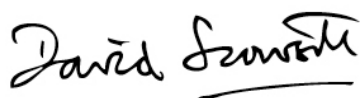

Travel & Tourism's impact on the economic and social development of a country can be enormous; opening it up for business, trade and capital investment, creating jobs and entrepreneurialism for the workforce and protecting heritage and cultural values. To fully understand its impact, however, governments, policy makers and businesses around the world require accurate and reliable data on the impact of the sector. Data is needed to help assess policies that govern future industry development and to provide knowledge to help guide successful and sustainable Travel & Tourism investment decisions.

For 25 years, WTTC has been quantifying the economic impact of Travel & Tourism. This year, the 2015 Annual Economic Reports cover 184 countries and 25 regions of the world, including, for the first time, the Pacific Alliance.

Travel & Tourism generated US\$7.6 trillion (10% of global GDP) and 277 million jobs (1 in 11 jobs) for the global economy in 2014. Recent years have seen Travel & Tourism growing at a faster rate than both the wider economy and other significant sectors such as automotive, financial services and health care. Last year was no exception. International tourist arrivals also surged, reaching nearly 1.14 billion and visitor spending more than matched that growth. Visitors from emerging economies now represent a 46% share of these international arrivals (up from 38% in 2000), proving the growth and increased opportunities for travel from those in these new markets.

The sector faces challenges every year and this year is likely to be no different. The weakness and potential volatility of many currencies against the US dollar and a deep recession in Russia, a key outbound market, will slow outbound spending in line with slower world trade overall in 2015. However, falling oil prices will bring significant improvements for net oil importers in 2015, easing upward pressure on living costs, increasing disposable household incomes and domestic consumer spending, and lowering air fares. As a result, Travel & Tourism expansion is forecast to continue at a stronger rate than last year, with the total contribution to GDP expected to increase by 3.7%. New destinations and investment opportunities will also continue to emerge as tourism becomes increasingly affordable across the developing world. This growth will require countries to adopt a concerted and coordinated approach to talent planning and development between their industry, governments and educational institutions to ensure they fulfil their potential in the years ahead.

WTTC is proud to continue to provide this clear and empirical data in order to help both public and private bodies make the right decisions for the future growth of a sustainable Travel & Tourism sector.

## 2015 ANNUAL RESEARCH: KEY FACTS<sup>1</sup>

2015 forecast

### GDP: DIRECT CONTRIBUTION

The direct contribution of Travel & Tourism to GDP was FJD1,068.8mn (13.7% of total GDP) in 2014, and is forecast to rise by 0.6% in 2015, and to rise by 5.1% pa, from 2015-2025, to FJD1,771.3mn (17.8% of total GDP) in 2025.

### GDP: TOTAL CONTRIBUTION

The total contribution of Travel & Tourism to GDP was FJD2,894.2mn (37.0% of GDP) in 2014, and is forecast to fall by 0.2% in 2015, and to rise by 4.1% pa to FJD4,338.3mn (43.6% of GDP) in 2025.

### EMPLOYMENT: DIRECT CONTRIBUTION

In 2014 Travel & Tourism directly supported 41,500 jobs (12.3% of total employment). This is expected to fall by 0.8% in 2015 and rise by 4.0% pa to 61,000 jobs (16.3% of total employment) in 2025.

### EMPLOYMENT: TOTAL CONTRIBUTION

In 2014, the total contribution of Travel & Tourism to employment, including jobs indirectly supported by the industry, was 33.4% of total employment (112,500 jobs). This is expected to fall by 1.6% in 2015 to 110,500 jobs and rise by 2.9% pa to 148,000 jobs in 2025 (39.8% of total).

### VISITOR EXPORTS

Visitor exports generated FJD1,859.0mn (40.6% of total exports) in 2014. This is forecast to grow by 0.5% in 2015, and grow by 5.6% pa, from 2015-2025, to FJD3,209.4mn in 2025 (29.5% of total).

### INVESTMENT

Travel & Tourism investment in 2014 was FJD442.3mn, or 35.1% of total investment. It should fall by 0.3% in 2015, and rise by 3.8% pa over the next ten years to FJD642.4mn in 2025 (48.1% of total).

Breakdown of Travel & Tourism's Total Contribution to GDP and Employment 2014

GDP (2014 FJDmn)

# Defining the economic contribution of Travel & Tourism

Travel & Tourism is an important economic activity in most countries around the world. As well as its direct economic impact, the sector has significant indirect and induced impacts. The UN Statistics Division-approved Tourism Satellite Accounting methodology (TSA:RMF 2008) quantifies only the direct contribution of Travel & Tourism. WTTC recognises that Travel & Tourism's total contribution is much greater however, and aims to capture its indirect and induced impacts through its annual research.

## DIRECT Travel & Tourism contribution

### COMMODITIES

- Accommodation
- Transportation
- Entertainment
- Attractions

### INDUSTRIES

- Accommodation services
- Food & beverage services
- Retail Trade
- Transportation services
- Cultural, sports & recreational services

### SOURCES OF SPENDING

- Residents' domestic T&T spending
- Businesses' domestic travel spending
- Visitor exports
- Individual government T&T spending

## INDIRECT Travel & Tourism contribution

- T&T investment spending
- Government collective T&T spending
- Impact of purchases from suppliers

## INDUCED contribution (spending of direct and indirect employees)

- Food and beverages
- Recreation
- Clothing
- Housing
- Household goods

## TOTAL Travel & Tourism contribution

- To GDP
- To employment

### DIRECT CONTRIBUTION

The direct contribution of Travel & Tourism to GDP reflects the 'internal' spending on Travel & Tourism (total spending within a particular country on Travel & Tourism by residents and non-residents for business and leisure purposes) as well as government 'individual' spending - spending by government on Travel & Tourism services directly linked to visitors, such as cultural (eg museums) or recreational (eg national parks).

The direct contribution of Travel & Tourism to GDP is calculated to be consistent with the output, as expressed in National Accounting, of tourism-characteristic sectors such as hotels, airlines, airports, travel agents and leisure and recreation services that deal directly with tourists. The direct contribution of Travel & Tourism to GDP is calculated from total internal spending by 'netting out' the purchases made by the different tourism industries. This measure is consistent with the definition of Tourism GDP, specified in the 2008 Tourism Satellite Account: Recommended Methodological Framework (TSA: RMF 2008).

### TOTAL CONTRIBUTION

The total contribution of Travel & Tourism includes its 'wider impacts' (ie the indirect and induced impacts) on the economy. The 'indirect' contribution includes the GDP and jobs supported by:

- Travel & Tourism investment spending – an important aspect of both current and future activity that includes investment activity such as the purchase of new aircraft and construction of new hotels;
- Government 'collective' spending, which helps Travel & Tourism activity in many different ways as it is made on behalf of the 'community at large' – eg tourism marketing and promotion, aviation, administration, security services, resort area security services, resort area sanitation services, etc;
- Domestic purchases of goods and services by the sectors dealing directly with tourists - including, for example, purchases of food and cleaning services by hotels, of fuel and catering services by airlines, and IT services by travel agents.

The 'induced' contribution measures the GDP and jobs supported by the spending of those who are directly or indirectly employed by the Travel & Tourism sector.

# Travel & Tourism's contribution to GDP<sup>1</sup>

The direct contribution of Travel & Tourism to GDP in 2014 was FJD1,068.8mn (13.7% of GDP). This is forecast to rise by 0.6% to FJD1,075.5mn in 2015. This primarily reflects the economic activity generated by industries such as hotels, travel agents, airlines and other passenger transportation services (excluding commuter services). But it also includes, for example, the activities of the restaurant and leisure industries directly supported

The direct contribution of Travel & Tourism to GDP is expected to grow by 5.1% pa to FJD1,771.3mn (17.8% of GDP) by 2025.

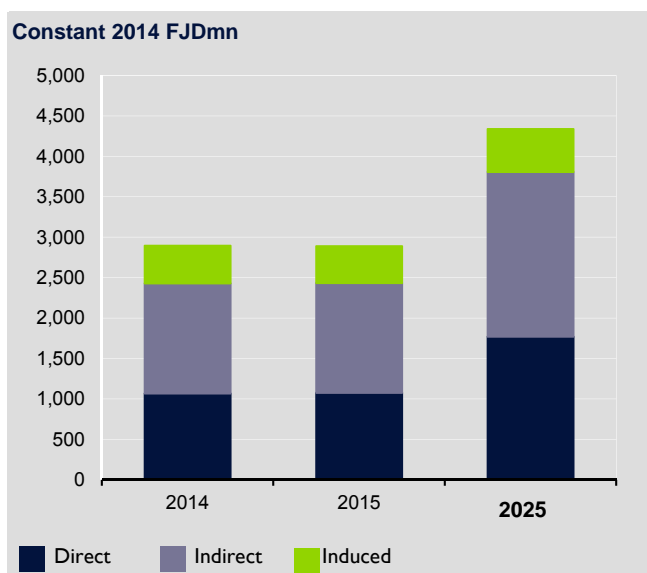

## FIJI: DIRECT CONTRIBUTION OF TRAVEL & TOURISM TO GDP

The total contribution of Travel & Tourism to GDP (including wider effects from investment, the supply chain and induced income impacts, see page 2) was FJD2,894.2mn in 2014 (37.0% of GDP) and is expected to grow by 0.2% to FJD2,889.2mn (35.9% of GDP) in 2015.

It is forecast to rise by 4.1% pa to FJD4,338.3mn by 2025 (43.6% of GDP).

## FIJI: TOTAL CONTRIBUTION OF TRAVEL & TOURISM TO GDP

<sup>1</sup> All values are in constant 2014 prices & exchange rates

# Travel & Tourism's contribution to employment

Travel & Tourism generated 41,500 jobs directly in 2014 (12.3% of total employment) and this is forecast to fall by 0.8% in 2015 to 41,000 (12.0% of total employment). This includes employment by hotels, travel agents, airlines and other passenger transportation services (excluding commuter services). It also includes, for example, the activities of the restaurant and leisure industries directly supported by tourists.

By 2025, Travel & Tourism will account for 61,000 jobs directly, an increase of 4.0% pa over the next ten years.

## FIJI: DIRECT CONTRIBUTION OF TRAVEL & TOURISM TO EMPLOYMENT

The total contribution of Travel & Tourism to employment (including wider effects from investment, the supply chain and induced income impacts, see page 2) was 112,500 jobs in 2014 (33.4% of total employment). This is forecast to fall by 1.6% in 2015 to 110,500 jobs (32.4% of total employment).

By 2025, Travel & Tourism is forecast to support 148,000 jobs (39.8% of total employment), an increase of 2.9% pa over the period.

## FIJI: TOTAL CONTRIBUTION OF TRAVEL & TOURISM TO EMPLOYMENT

# Visitor Exports and Investment<sup>1</sup>

## VISITOR EXPORTS

Money spent by foreign visitors to a country (or visitor exports) is a key component of the direct contribution of Travel & Tourism. In 2014, Fiji generated FJD1,859.0mn in visitor exports. In 2015, this is expected to grow by 0.5%, and the country is expected to attract 692,000 international tourist arrivals.

By 2025, international tourist arrivals are forecast to total 988,000, generating expenditure of FJD3,209.4mn, an increase of 5.6% pa.

## FIJI: VISITOR EXPORTS AND INTERNATIONAL TOURIST ARRIVALS

## INVESTMENT

Travel & Tourism is expected to have attracted capital investment of FJD442.3mn in 2014. This is expected to fall by 0.3% in 2015, and rise by 3.8% pa over the next ten years to FJD642.4mn in 2025.

Travel & Tourism's share of total national investment will rise from 35.0% in 2015 to 48.1% in 2025.

## FIJI: CAPITAL INVESTMENT IN TRAVEL & TOURISM

<sup>1</sup> All values are in constant 2014 prices & exchange rates

# Different components of Travel & Tourism<sup>1</sup>

**Fiji**  
Travel & Tourism's Contribution to GDP:  
Business vs Leisure, 2014

Leisure spending **90.6%**  
Business spending **9.4%**

Leisure travel spending (inbound and domestic) generated 90.6% of direct Travel & Tourism GDP in 2014 (FJD1,867.8mn) compared with 9.4% for business travel spending (FJD194.8mn).

Leisure travel spending is expected to grow by 0.6% in 2015 to FJD1,879.8mn, and rise by 5.3% pa to FJD3,161.0mn in 2025.

Business travel spending is expected to grow by 2.6% in 2015 to FJD199.9mn, and rise by 4.3% pa to FJD303.2mn in 2025.

**Fiji**  
Travel & Tourism's Contribution to GDP:  
Domestic vs Foreign, 2014

Foreign visitor spending **90.1%**  
Domestic spending **9.9%**

Domestic travel spending generated 9.9% of direct Travel & Tourism GDP in 2014 compared with 90.1% for visitor exports (ie foreign visitor spending or international tourism receipts).

Domestic travel spending is expected to grow by 3.8% in 2015 to FJD211.4mn, and rise by 1.9% pa to FJD254.7mn in 2025.

Visitor exports are expected to grow by 0.5% in 2015 to FJD1,868.3mn, and rise by 5.6% pa to FJD3,209.4mn in 2025.

**Fiji**  
Breakdown of Travel & Tourism's Total Contribution to GDP, 2014

Direct **36.9%**  
Induced **16.1%**  
Indirect **47.0%**  
*Indirect is the sum of:*  
(a) Supply chain **32.1%**  
(b) Investment **10.9%**  
(c) Government collective **4.0%**

The Travel & Tourism industry contributes to GDP and employment in many ways as detailed on page 2.

**The total contribution of Travel & Tourism to GDP is its direct contribution.**

The tables on pages 7-10 provide brief extracts from the full WTTC Country League Table Rankings, highlighting comparisons with competing destinations as well as with the world and regional average. Averages in above tables are simple cross-country averages. The competing destinations selected are those that offer a similar tourism product and compete for tourists from the same set of origin markets. These tend to be, but are not exclusively, geographical neighbours.

% of total refers to each indicator's share of the relevant whole economy indicator such as GDP and employment. Visitor exports is shown relative to total exports of goods and Domestic spending is expressed relative to whole economy GDP. For leisure and business spending, their direct contribution to Travel & Tourism GDP is calculated as a share of whole economy GDP (the sum of these shares equals the direct contribution). Investment is relative to whole economy investment.

# The economic contribution of Travel & Tourism: Real 2014 prices

<b>Fiji</b> (FJDmn, real 2014 prices)	2009	2010	2011	2012	2013	2014	2015E	2025F

# Glossary

## KEY DEFINITIONS

**Travel & Tourism** – relates to the activity of travellers on trips outside their usual environment with a duration of less than one year. Economic activity related to all aspects of such trips is measured within the research.

**Direct contribution to GDP** – GDP generated by industries that deal directly with tourists, including hotels, travel agents, airlines and other passenger transport services, as well as the activities of restaurant and leisure industries that deal directly with tourists. It is equivalent to total internal Travel & Tourism spending (see below) within a country less the purchases made by those industries (including imports). In terms of the UN's Tourism Satellite Account methodology it is consistent with total GDP calculated in table 6 of the TSA: RMF 2008.

**Direct contribution to employment** – the number of direct jobs within Travel & Tourism. This is consistent with total employment calculated in table 7 of the TSA: RMF 2008.

**Total contribution to GDP** – GDP generated directly by the Travel & Tourism sector plus its indirect and induced impacts (see below).

**Total contribution to employment** – the number of jobs generated directly in the Travel & Tourism sector plus the indirect and induced contributions (see below).

## DIRECT SPENDING IMPACTS

**Visitor exports** – spending within the country by international tourists for both business and leisure trips, including spending on transport, but excluding international spending on education. This is consistent with total inbound tourism expenditure in table 1 of the TSA: RMF 2008.

**Domestic Travel & Tourism spending** – spending within a country by that country's residents for both business and leisure trips. Multi-use consumer durables are not included since they are not purchased solely for tourism purposes. This is consistent with total domestic tourism expenditure in table 2 of the TSA: RMF 2008. Outbound spending by residents abroad is not included here, but is separately identified according to the TSA: RMF 2008 (see below).

**Government individual spending** – spending by government on Travel & Tourism services directly linked to visitors, such as cultural services (eg museums) or recreational services (eg national parks).

**Internal tourism consumption** – total revenue generated within a country by industries that deal directly with tourists including visitor exports, domestic spending and government individual spending. This does not include spending abroad by residents. This is consistent with total internal tourism expenditure in table 4 of the TSA: RMF 2008.

**Business Travel & Tourism spending** – spending on business travel within a country by residents and international visitors.

**Leisure Travel & Tourism spending** – spending on leisure travel within a country by residents and international visitors.

## INDIRECT AND INDUCED IMPACTS

**Indirect contribution** – the contribution to GDP and jobs of the following three factors:

- **Capital investment** – includes capital investment spending by all industries directly involved in Travel & Tourism. This also constitutes investment spending by other industries on specific tourism assets such as new visitor accommodation and passenger transport equipment, as well as restaurants and leisure facilities for specific tourism use. This is consistent with total tourism gross fixed capital formation in table 8 of the TSA: RMF 2008.
- **Government collective spending** – government spending in support of general tourism activity. This can include national as well as regional and local government spending. For example, it includes tourism promotion, visitor information services, administrative services and other public services. This is consistent with total collective tourism consumption in table 9 of TSA: RMF 2008.
- **Supply-chain effects** – purchases of domestic goods and services directly by different industries within Travel & Tourism as inputs to their final tourism output.

**Induced contribution** – the broader contribution to GDP and employment of spending by those who are directly or indirectly employed by Travel & Tourism.

## OTHER INDICATORS

**Outbound expenditure** – spending outside the country by residents on all trips abroad. This is fully aligned with total outbound tourism expenditure in table 3 of the TSA: RMF 2008.

**Foreign visitor arrivals** – the number of arrivals of foreign visitors, including same-day and overnight visitors (tourists) to the country.

# Methodological note

WTTC has an on-going commitment to align its economic impact research with the UN Statistics Division-approved 2008 Tourism Satellite Account: Recommended Methodological Framework (TSA:RMF 2008). This involves benchmarking of country reports to official, published TSAs, including for countries which are reporting data for the first time, as well as existing countries reporting an additional year's data. New country TSAs incorporated this year include France, Germany, Japan, Malaysia, Mexico, Oman, Qatar and Saudi Arabia.

In addition to producing data on 184 countries, WTTC also produces reports on 24 other regions, sub-regions and economic and geographic groups. This year, there are 8 reports for special economic and geographic groups with Pacific Alliance being included for the first time. Please also note that from this year, the report for Sudan no longer includes data on South Sudan.

## ECONOMIC AND GEOGRAPHIC GROUPS

### APEC (ASIA-PACIFIC ECONOMIC COOPERATION)

Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russian Federation, Singapore, Taiwan, Thailand, USA, Vietnam.

### THE COMMONWEALTH

Anguilla, Antigua and Barbuda, Australia, Bahamas, Bangladesh, Barbados, Belize, Bermuda, Botswana, Brunei, Cameroon, Canada, Cayman Islands, Cyprus, Dominica, Ghana, Grenada, Guyana, India, Jamaica, Kenya, Kiribati, Lesotho, Malawi, Malaysia, Maldives, Malta, Mauritius, Mozambique, Namibia, Nigeria, New Zealand, Pakistan, Papua New Guinea, Rwanda, South Africa, Seychelles, Sierra Leone, Singapore, Solomon Islands, Sri Lanka, St Kitts and Nevis, St Lucia, St Vincent and the Grenadines, Swaziland, Tanzania, Tonga, Trinidad and Tobago, Uganda, UK, British Virgin Islands, Vanuatu, Zambia.

### FORMER NETHERLANDS ANTILLES

Bonaire, Curacao, Sint Maarten, Saba and Sint Eustatius.

### G20

Argentina, Australia, Brazil, Canada, China, European Union, France\*, Germany\*, India, Indonesia, Italy\*, Japan, Mexico, Russian Federation, Saudi Arabia, South Africa, South Korea, Turkey, UK\*, USA.

### META (MEDITERRANEAN TRAVEL ASSOCIATION)

Albania, Algeria, Bosnia Herzegovina, Croatia, Cyprus, Egypt, France, Greece, Israel, Italy, Jordan, Lebanon, Libya, Macedonia, Malta, Montenegro, Morocco, Portugal, Serbia, Slovenia, Spain, Syria, Tunisia, Turkey.

### OAS (ORGANIZATION OF AMERICAN STATES)

Argentina, Antigua and Barbuda, Bahamas, Barbados, Belize, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Dominica, Ecuador, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, St Kitts and Nevis, Nicaragua, Panama, Paraguay, Peru, St Lucia, St Vincent and the Grenadines, Suriname, Trinidad and Tobago, USA, Uruguay.

### OECD (ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT)

Australia, Austria, Belgium, Canada, Chile, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, South Korea, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, UK, USA.

### OTHER OCEANIA

American Samoa, Cook Islands, French Polynesia, Guam, Marshall Islands, Micronesia (Federated States of), New Caledonia, Niue, Northern Mariana Islands, Palau, Samoa, Tuvalu.

### PACIFIC ALLIANCE

Chile, Colombia, Mexico, Peru.

### SADC (SOUTHERN AFRICAN DEVELOPMENT COMMUNITY)

Angola, Botswana, Democratic Republic of Congo (DRC), Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, Swaziland, Tanzania, Zambia, Zimbabwe.

\*included in European Union

**THE WORLD TRAVEL & TOURISM COUNCIL IS  
THE GLOBAL AUTHORITY ON THE ECONOMIC AND  
SOCIAL CONTRIBUTION OF TRAVEL & TOURISM.**

WTTC promotes sustainable growth for the sector, working with governments and international institutions to create jobs, to drive exports and to generate prosperity. Council Members are the Chairs, Presidents and Chief Executives of the world's leading, private sector Travel & Tourism businesses.

Together with its research partner, Oxford Economics, WTTC produces annual research that shows Travel & Tourism to be one of the world's largest sectors, supporting over 276 million jobs and generating 9.8% of global GDP in 2014. Comprehensive reports quantify, compare and forecast the economic impact of Travel & Tourism on 184 economies around the world. In addition to the individual country reports, WTTC produces a world report highlighting global trends and 24 further reports that focus on regions, sub-regions and economic and geographic groups.

To download reports or data, please visit [www.wttc.org](http://www.wttc.org)

**ASSISTING WTTC TO PROVIDE TOOLS FOR ANALYSIS,  
BENCHMARKING, FORECASTING AND PLANNING.**

Over the last 33 years, Oxford Economics has built a diverse and loyal client base of over 800 international organisations, including leading multinational companies and financial institutions; key government bodies and trade associations; and top universities, consultancies, and think tanks. Headquartered in Oxford, England, with regional centres in London, New York and Singapore, Oxford Economics has offices across the globe in Belfast, Chicago, Dubai, Miami, Milan, Paris, Philadelphia, San Francisco, and Washington DC. The company employs over 140 full-time people, including more than 90 professional economists, industry experts and business editors – one of the largest teams of macroeconomists and thought leadership specialists – underpinned by our heritage with Oxford University and the academic community including a contributor network of over 500 economists, analysts and journalists around the world.
